

Your Guide to Yampascaping Professionals

Karen's Growing Ideas

karenvail@springsips.com | 970.846.5483

Karen Vail focuses on native and native adapted plants and low water gardening and organic practices.

Mica Gardenscapes

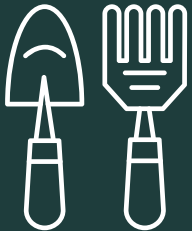

micagardenscapes@gmail.com | 240.678.2594

Mica Gardenscapes focuses on organic gardening, waterwise design, and using plants suitable for our high-alpine environment.

Steambotanicals

steambotanicals@gmail.com | 970.291.0426

Steambotanicals focuses on the use and conversion to native plants in ornamental gardens as well as alternative means of watering, stepping away from traditional irrigation whenever possible.

Stephanie Appel Design

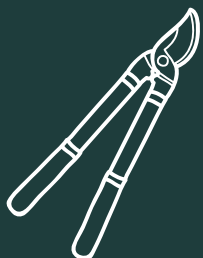

design@stephanieappel.com | 970.819.1213

Stephanie Appel focuses on experiential landscape design, sustainable ecological design, and play and sensory gardens, with the ability to create custom residential and commercial landscape design, hand drawn or computer rendered conceptual site plans.

Western Water Management

steve@westernwatermanagement.net | 720.988.7134

Western Water Management focuses on irrigation design and consulting services, irrigation assessments and audits, irrigation efficiency testing, irrigation controller modernization upgrades and smart water technology upgrades (includes costs, water savings and ROI information), water budget creation, indoor water use analysis, and backflow assembly testing. Steve is CLIA, CID, QWEL certified.

Steamboat Smartscales, Inc.

steamboatsmartscales@gmail.com | 970.761.0098

Steamboat Smartscales is committed to helping property owners create beautiful, waterwise landscapes appropriate for the Yampa Valley. Owner, Tristan Swain, is a certified Qualified Water Efficient Landscaper (QWEL) and specializes in irrigation systems, including efficiency evaluations and audits, system retrofits, and water management and budgeting. He also helps clients with sustainable landscape planning and implementation.
