

Art Sponsorship - \$500

NEW!

Insight: Art for Climate Action (Environmental Fundraiser)

Photo courtesy of Jill Bergman

Be a part of YVSC's first annual signature fundraising event, Insight, an art auction benefiting YVSC and sustainability here in the Yampa Valley. We believe that art is a powerful way to educate around climate science and communicate sustainability efforts to a wider community. We at YVSC value art as an important way to bolster science communication and inspire action, and this fundraising event has been built with those intentions in mind.

For this event, we are calling on artists to create work informed by YVSC's work and the natural ecosystems we call home. We hope that the art created, will help educate and inspire connection to the environment.

As a local business, organization, or individual, we are inviting you to get involved with the event by sponsoring one of the artists.

Art Sponsor Benefits

Logo on welcome sign at event entrance

Signage displayed next to sponsored artwork featuring your business as the sponsor

Logo in event presentation

Sponsor mention during the event

Your sponsorship will allow one of our artists to cover the materials cost of creating their piece of art.
